

The Opportunity Charter School

2010-2011 Application

A Safe, Supportive Environment

Our staff is trained in the Therapeutic Crisis Intervention method of behavior management, which emphasizes close observation of student behavior and intervention before a situation escalates into crisis. TCI, partnered with our Positive Behavioral Intervention System (PBIS) promotes a positive, healthy school culture where students are recognized and rewarded for positive behavior.

Belief in Every Student's Promise

Our staff is trained in the Schools Attuned Theory and Methodology of evaluating academic strengths and weaknesses. An individualized education plan is created, tailored to each child's needs. As a result, students receive differentiated instruction in every curricula area.

Data Driven, Performance Driven, and Results Oriented Instruction

OCS provides a rigorous curriculum aligned to the New York State Standards with a particular emphasis on individualizing education to meet each student's need. Our curriculum will prepare students to take the Regents and transition to college or a meaningful career. The goal is for every student to graduate having achieved a clearly demonstrated academic and social foundation.
